Benchmarking Studies

RoyaltyRange benchmarking study is a detailed comparison of publicly available licence agreements and royalty rates in order to determine an arm's length (market) royalty rate range for your products or services.

RoyaltyRange performs Comparable Uncontrolled Price (CUP) analysis to determine an arm's length range of royalty rates for intellectual property licensing.
The fee for our service is EUR 1200.

Our benchmarking studies are very popular and useful for the European Patent Box analysis

We focus on recent third-party licence agreements covering European region and worldwide territory;

Our database consists of agreements with disclosed royalty rates in percentages;

Our data is compliant with the OECD BEPS measures and the upcoming EU Anti Tax Avoidance Package.
